

Sinclair Broadcasting's mandate to their stations to air a one-sided political documentary (with the feeble excuse that the other candidate was asked to comment and refused) is a blatant mis-use of their license and privileges granted by the government of the people. It would be evened out with merely showing a documentary favoring the other candidate, but Sinclair has no plans to do so. It is shocking and unbelievable that Sinclair should even consider behaving in this disrespectful and harmful manner.

Please reconsider the renewal of their license for broadcasting; Sinclair is blithely maiming the public good for its own self-interest.
